

Software Engineering Group Meeting

Friday 8th February, 2019

Group Members: Joshua Oxley, Adrian Santo, Raphael Superville, Kenaird Saunders

Present Members: Joshua Oxley, Adrian Santo, Raphael Superville, Kenaird Saunders

Meeting Start: 12:30 pm

Meeting End: 1:27 pm

Second Meeting:

Discussion:

- The meeting was to discuss about the user story for the project's users.

Details:

- Student user story would have:
 - View Transcript
 - Forum
 - Degree Audit
 - Credits Remaining
 - Courses remaining (idea of what to do)
 - Financially cleared
 - Student Profile
 - Course and credit recommendation
 - Provision of degree statistics

- Staff user story would contain:
 - Forum
 - Student Transcript
 - Degree Audit reports
 - An option to view the rise and fall of students GPA

- Deans and Head of Departments (H.O.D.s) user story:
 - Forums
 - Student Transcripts
 - Degree Audit Reports
 - Overall passing grades
 - Student profile summary
 - Average course grade
 - Restricting student access

All of these things are restricted to each department

- Human Resources (HR) / Administrative Staff user Story:
 - External form with stakeholders
 - Student Records
 - Summary of student records
 - Restrict Staff, Deans and H.O.D.s access

Different Users:

- 1) External Stakeholders (very limited access, heavy restrictions)
- 2) Students (limited user access, only allowed to view things concerning their profile and information allowed to them)
- 3) Teaching Staff (limited access, able to view some of students information and data related to themselves)
- 4) Deans and H.O.D.s (limited access, allowed to view summaries of data from the students and statistics, able to allow or restrict certain access to students)
- 5) Administrative Staff (least limited access, able to view information on Deans and restrict access as well)
